Laerdal Nursing Training Solutions
Enhance your simulation-based education by integrating 20 preconfigured scenarios into your training program – 10 basic and 10 advanced cases designed to challenge nursing students at varying levels. Cases range from obtaining vital signs through recognizing and managing life-threatening medical complications.

These scenarios are mapped to the 2007 National Council Licensure Examination-Registered Nurse (NCLEX-RN) test categories which promote safe and effective care environment, health promotion and maintenance, psychosocial integrity, and physiological integrity.

**Nursing Surgical Core Cases**
- Lower Leg Fracture – Basic Assessment
- Preoperative Bowel Obstruction – Spiritual Needs
- Immediate Postoperative Abdominal Hysterectomy – Managing Nausea
- Postoperative Hemicolecotomy – Preventing Respiratory Complications
- Postoperative Hip Arthroplasty – Blood Transfusion

**Nursing Surgical Complex Cases**
- Lower Leg Fracture – Compartment Syndrome
- Preoperative Bowel Obstruction – Fluid and Electrolyte Imbalance
- Immediate Postoperative Abdominal Hysterectomy – Opioid Intoxication
- Postoperative Hemicolecotomy – Pulmonary Embolism
- Postoperative Hip Arthroplasty – Blood Transfusion Reaction

**Nursing Medical Core Cases**
- Acute Strep Throat – Mild Reaction to Antibiotic
- Mild Asthma
- Chronic Obstructive Pulmonary Disease – Oxygen Therapy
- Angina – Coronary Artery Disease
- Diabetic Insulin Administration

**Nursing Medical Complex Cases**
- Pneumonia – Severe Reaction to Antibiotic
- Acute Severe Asthma
- Chronic Obstructive Pulmonary Disease – Spontaneous Pneumothorax
- Acute Myocardial Infarction
- Diabetic Hypoglycemia

The scenarios package includes the following:
- Pre-programmed scenarios
- Patient information card
- “Simulation in Nursing Education” book
- Patient ID bands
- Data collection forms
- Physician orders

**Building core nursing competencies in student learners**

Includes one software license for installation on one PC only.
