

RA Simulator and RA Advanced SkillTrainer

Airway Head Spare Parts

The airway for RA Simulator and RA Advanced SkillTrainer has been updated **from July 2012**. Pictures to help you identify whether your manikin has an old or new airway are shown at the end of this document.

New Airway Head Catalogue numbers

The following catalogue numbers should be used for all manikins with a new airway head or manikins with an old airway head that have been upgraded with the new replacement airway.

Catalogue number	Description	Comment
150-11050	Airway Head Complete	Cat. No. remains the same but now includes the new airway
310201	RA Wig	The same wig as other existing RA manikins
150-12250	RA Sim Face Skin	New face skin for use with new airway only
150-12150	Upper Airway Complete	New replacement airway (inc. cricoid structure and tongue)
150-11650	Foam set RA Simulator	Compatible with new or old airway head

Old Airway Head Catalogue numbers

An inventory of the following catalogue numbers will be kept for at least five years.

Catalogue number	Description	Comment
150-11550	RASim Face Skin	For use with the old airway only
150-11750	RA Sim Wig	For use with the old airway only
150-11850	Cricoid structure (TPSS)	For use with the old airway only
150-11650	Foam set RA Simulator	Compatible with new or old airway head
150-12050	RASim Airway Upgrade Kit	New replacement airway, face skin and wig

Frequently Asked Questions

Q: I want to buy spare parts for the RA Sim Airway Head/ RA Advanced SkillTrainer Airway Head how do I tell if I have an old or new one?

A. Whilst there are slight differences in the wig colouring and texture of the old and new face skins, the easiest way to distinguish between old and new is by rolling back the face skin and looking for the airway landmarks indicated in the pictures below:

Old Airway Head

New Airway Head

Q: I have an old airway head and the airway (Cat no: 150-11250) is torn what do I need to replace it?

A. Replace with the RASim Airway Upgrade Kit (Cat no: 150-12050). Please note when the old airway is replaced with the new airway, the old wig and face skin must also be replaced as those parts are not compatible with the new airway.

Q. Only the face skin on the old RA Simulator airway head is torn what do I need to replace it?

A: Order the old face skin (Cat no: 150-11550). An inventory of this part will be kept for a minimum of 5 years.

Q. I need to replace the face skin on my RA Advanced SkillTrainer Airway Head, does it have different catalogue numbers to the RA Simulator?

A: No. The RA Advanced SkillTrainer and RA Simulator now share the same replacement part catalogue numbers for both new and old airway heads as described above.
